WORK EXPERIENCE

PROGRAMMER ANALYST | WIPRO PHILIPPINES INC. | Baguio City
Mar 2023 – Apr 2026

- Talked with stakeholders to understand what they needed; wrote down clear requirements, process steps, and what success looks like; worked closely for launch updates; helped with testing, fixed issues, and made sure everything went live smoothly.
- Looked at how we did things, found better ways, and simplified system work processes.
- Made easy-to-follow guides and documents; trained users and helped keep things running well after launch.
- Executed full-cycle development: requirement gathering > system analysis > coding > testing > deployment > post-go-live support & maintenance.

Key Projects:

○ Procurement Internal Controls Checklist (ICC) using Monday Platform	Dec 2025 – Feb 2026
○ Procurement Analytics Portal using Mendix Platform	Feb 2024 – Aug 2024
